RESUSCITATION

Volume contents

Volume 26 (1993)

D. Chamberlain, J.P. Ornato	Editorial	1
C.G. Brown, R.F. Griffith, D. Neely, J. Hobson, B. Miller	The effect of intravenous magnesium administration on aortic, right atrial and coronary perfusion pressures during CPR in swine	3
A.N. Thomas, K. O'Sullivan, J. Hyatt, S.J. Barker	A comparison of bag mask and mouth mask ventilation in anaesthetised patients	13
R. Juchems, G. Wahlig, W. Frese	Influence of age on the survival rate of out-of-hospital and in-hospital resuscitation	23
D.W. Hamer, M.W.G. Gordon, S. Cusack, C.E. Robertson	Survival from cardiac arrest in an accident and emergency department: the impact of out of hospital advisory defibrillation	31
H.-R. Arntz, M. Oeff, S.N. Willich, W.H. Storch, R. Schröder	Establishment and results of an EMT-D program in a two-tiered physician-escorted rescue system. The experience in Berlin, Germany	39
R.J. Van Hoeyweghen, L.L. Bossaert, A. Mullie, P. Calle, P. Martens, W.A. Buylaert, H. Delooz, Belgian Cerebral Resuscitation Study Group	Quality and efficiency of bystander CPR	47
S.V. Cox, S.P. Woodhouse, M. Weber, P. Boyd, C. Case	Rhythm changes during resuscitation from ventricular fibrillation	53
D.R. Martin, T. Gavin, J. Bianco, C.G. Brown, H. Stueven, P.E. Pepe, R.O. Cummins, E. Gonzalez, M. Jastremski	Initial countershock in the treatment of asystole	63

SSDI 0300-9572(93)0734-J

M. Takino, Y. Okada	The optimum timing of resuscitative thoracotomy for non-traumatic out-of-hospital cardiac arrest	69
M.L. Sedgwick, K. Dalziel, J. Watson, D.J. Carrington, S.M. Cobbe	Performance of an established system of first responder out-of-hospital defibrillation. The results of the second year of the Heartstart Scotland Project in the 'Utstein Style'	75
R. Fulstow, G.B. Smith	The new recovery position, a cautionary tale	89
A.J. Handley	Recovery position (Invited editorial)	93
	Literature of resuscitation	97
W.F. Dick	Does prehospital care by physicians result in a better outcome than resuscitation by other EMS personnel? (Editorial)	109
C.F.M. Weston	The pathophysiology of sudden death in atherosclerotic heart disease (Review article)	111
K.J. Tucker, J.H. Khan, M.A. Savitt	Active compression-decompression resuscitation: effects on pulmonary ventilation	125
S. Sato, T. Kimura, N. Okubo, T. Naganuma, M. Tanaka	End-tidal CO_2 and plasma lactate level: a comparison of their use as parameters for evaluating successful CPR	133
M.A. Facktor, G.H. Mayor, R.F. Nachreiner, L.G. D'Alecy	Thyroid hormone loss and replacement during resuscitation from cardiac arrest in dogs	141
A. Murray, R.H. Clayton, R.W.F. Campbell	Comparative assessment of the ventricular fibrillation detection algorithms in five semi-automatic or advisory defibrillators	163
A.N. Thomas, E.C. Weber	A new method of two-resuscitator CPR	173
T.R.J. Parke	Unexplained pneumoperitoneum in association with basic cardiopulmonary resuscitation efforts	177
J. Villar, A.S. Slutsky	Effects of induced hypothermia in patients with septic adult respiratory distress syndrome	183
C.M. O'Donnell, A.C. Skinner	An evaluation of a short course in resuscitation training in a district general hospital	193
C.M. Little, C.G. Brown	Angiotensin II improves myocardial blood flow in cardiac arrest	203
A. Gilston	The no-reflow phenomenon and CPR (Letter to the editor)	211
	European Resuscitation Council Newsletter	213
	Literature of resuscitation	217

K.-A. Hossmann	Ischemia-mediated neuronal injury	225
K. Waxman, L. Eloi, L. Dinh, G. Scannell, G.T. Tominaga	Pentoxifylline alone versus pentoxifylline combined with superoxide dismutase prolongs survival in a rat hemorrhagic shock model	237
S.J. Jameson, J.R. Mateer, D.J. DeBehnke	Early volume expansion during cardiopulmonary resuscitation	243
K. Okamoto, H. Kishi, H. Choi, T. Morioka	Cardiopulmonary resuscitation without intermittent positive pressure ventilation	251
N.A. Paradis, M.I. Rose, U. Garg	The effect of global ischemia and reperfusion on the plasma levels of vasoactive peptides. The neuroendocrine response to cardiac arrest and resuscitation	261
M. Banyai, S. Falger, M. Röggla, S. Brugger, T. Staudinger, R. Klauser, C. Müller-Spoljaritsch, A. Vychytil, L. Erlacher, F. Sterz, M. Frass	Emergency intubation with the Combitube™ in a grossly obese patient with bull neck	271
I. Gustafson, E. Edgren	Brain-oriented intensive care and the no-reflow phenomenon (Letter to the editor)	277
	European Resuscitation Council Newsletter	279
	Literature of resuscitation	285
	Subject index	299
	Author index	303
	Volume contents	305
